## **DETAILED ACTION**

### ***Terminal Disclaimer***

1. The terminal disclaimer filed on 8 June 2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent # 6,665,796 has been reviewed and is accepted. The terminal disclaimer has been recorded.

### ***Drawings***

2. The drawings were received on 19 June 2006. The examiner accepts these drawings and all objections to the drawings are withdrawn.

### ***Claim Rejections - 35 USC § 101***

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 26-29 and 31-43 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Examiner's Note: Claims 1-25 and 30 have been cancelled.

Claim 26 has a terminating step of "selecting," which is not a real-world tangible result and thus is directed to non-statutory subject matter.

Claim 32 has a terminating step of "establishing," which is not a real-world tangible result and thus is directed to non-statutory subject matter.

Claim 40 has a terminating step of "providing instruction op codes to select a predetermined buffer, thereby selecting one of the plurality of answers," which is not a real-world tangible result and thus is directed to non-statutory subject matter.
